

Visual Stories: An introductory training to family members and support providers on how to share information in a visual way!

Visual Stories:

Visual Stories can help teach a person about specific social situations which can lead to:

- Easier transitions during the day
- Learning new skills
- Having more friends
- Increased understanding

Participants will learn how to create Visual Stories using a variety of tools:

- Low tech options -drawing on a sticky note, dry erase boards
- High tech options-computers, tablets, and mobile devices
- Examples will be provided and we encourage you to bring your mobile devices for hands-on training

The content of this training is based on the principles and values of Positive Behavior Support (PBS).
